more info and travel details!

- Montana de Oro State Park, CA

Central Coast Bikes + Bags is an outdoor company geared towards the bike-packing community of the Central Coast. Family owned and operated in San Luis Obispo, California since 2020 the company began with the intent to provide for the daily adventure lifestyle of coast. With strong ties from Northern San Francisco adventure culture and Southern Santa Barbara outdoor lifestyles, the team has a wide range of backgrounds in both design and adventure.

The company offers a wide range of bike gear from varying sizes/types of bags, attachments, bike-packing specific equipment, as well as adventure services for wilderness trips. The in-house San Luis Obispo factory also offers custom bag design needs for all different kinds of bikes, big or small. Be sure to check out our adventure blog which features a series of past bike-packing trips, travel guides, gear tutorials, and more.

Our goal is for bike-packing to be more than just a hobby or weekend activity. Central Coast Bikes + Bags is here to support the community and make sure everyone can achieve their adventure trip goals! Questions or want more information? Feel free to reach out by email or check out our website!
